The Cloud Phone System of the Future – Today

Your team will experience rich platform capabilities with turnkey telecom applications.

- Seamlessly move calls between devices when you're out of the office
- Manage incoming and outgoing messages, maintain up-to-date schedule information, and configure controls on calls and voicemail
- Easily record calls for improved compliance

All of Your Business Communications – One Source

From voice to video, stay in touch with your controlling members, volunteers, and management staff from anywhere, whether you are in the office, or out in the community.

- Call logs allow you to view complete records of all incoming and outgoing phone usage within your Nextiva Office manager control portal. This allows for easy tracking of conversations and appointments.
- Make calls from any device, landline, cell, or softphone and the caller ID says you're calling from your office phone.
- One phone number allows you to work from anywhere while your employees and clients can always reach you "in the office".

Monitor Your Productivity from Anywhere

Gain the freedom that comes with cloud-based unified communications. So much more than a dial-tone, NextOS provides instant access to your company's lifeline.

- Call Logs that allow you to view complete records of all phone usage.
- In the rare case of disaster, calls are automatically forwarded to a back up number.
- Simple Conferencing utilizes a simple "click-to-connect" call initiation for up to fourteen simultaneous participants without the necessity of a conference deck.
